WITHDRAWS HIS APPEAL

The Action of the Council of Ministers Causes no Excitement in Paris-The Anti-Dreyfus Papers Attack President Loubet, but Fall to Cause Trouble-He Will Leave France.

Paris, (By Cable,) - The council of ministers decided to pardon Dreylus in principle. The pardon will take effect in a few days. Dreyfus has relinquished his appeal for a reversal of the judgment of the court-mar-

It is said that Dreyfus will be sent abroad before the promulgation of his pardon, in order to avoid demonstrations.

The official approuncement was made in this form, in order to avoid demonstrations of any kind at Bonnes and in Paris. But the pardon of Dreyfus is not merely immiment, but was actually signed. Measures have been taken in Rennes in connection with it, and it will have a good effect genarally.

The decision of the Cabinet to pardon Dreyfus created loss interest in Paris than would the result of a big horse race. In fact, it may be said that it caused no excitement whatever. There was no rioting on the boulevards. In front of the offices of the Libre Parole, where a crowd usually assembles in the evening to gaze upon the hoge colored transparencies outside the windows of the leading anti-Semite organ, there was not the slightest gathering or the inintest sign of a demonstration either for er against Dreyfus

One would think that the fire of the Dreyfus agitation had burned itself out. The anti-Dreyfusard evening papers tried to infuse interest into the government's action by a rabid attack upon President Loubet, but their efforts were futile.

The peaceful crowds that filled the tables In front of the cafes, sipping their after-disner coffee, looked at the newsboys who displayed the front pages of these sheets with their violent headlines, but utterly refused to get excited. The majority did not even discuss the matter, or only made the passing remark that the decision was just what had been expected and predicted by every partisan newspaper since the Rennes courtmartini delivered its verdict.

The anti-Dreyfusard newspaper Soir had the most sensational caption, two lines of enormous letters extending across the entire front page, announcing "The Traitor Dreyfus Pardoned. Outrage on the Army." Then, in the course of an article violently

nitacking President Loubet, it said: "Loubet has given bimself a coup de grace in pardoning Dr-yfus. He should be proseested for committing an outrage upon the army, for his decision amounts to this. By a stroke of the pen he has destroyed the effect of the sentences of two courts-martial, and has declared that two military courts have lied." The Soir adds: "The affair has become

grave when the chief of state assumes the leadership of the anti-military movement und pardons a confessed traitor, under the pretext that he has been condemned twice, instead of once."

NO FIGHTING FOR SIX WEEKS.

The Ralny Season in the Philippines Will Last Until November 1.

Washington, (Special.)-Information received at the War Department shows that the rainy season in the Philippines will last fully six weeks longer, or until the 1st of Sovember. Until that time, no information is expected of any military operations of importance. The present conditions are such as to make an immediate renewal of the campaign impossible.

The delay, however, is welcomed by the army officers, because it affords more time or the transportation of troops to Manile This work is now said to be proceeding with great vigor Over ten thousand troops will cruss the Pacific this mouth and about five thousand will be sent over during October. This will increase Gen. Otls' fighting force 40 nearly 50,000 men, and will enable him to press further from Manila than he has en able to do, besides which he will have an army sufficiently large to hold the towns which he captures from the enemy present the army is divided into two divisions, one perth and the other south of Manila, under Gens, Lawton and MacArthur, respectively. A regin ent is stationed in Manila as a provost guard.

THE DEAD AND INJURED.

Four Rodies Have Been Taken from the Ruins of the Hospital St. Vincent de Which Was Completely Consumed by Fire-There Are Others Missing-Firemen and Nurses Injured.

Norfolk, Va., (Special,)-The ruins of the Hospital of St. Vincent de Paul bave yielded

up four bodies to the firemen's search The dead are: Mrs. Margaret McEwen, seventy years of age, a lady of weak mind, who was there for safekeeping. The only way she could be identified was by her car rings, the body being so badly burned.

Mrs. Elizabeth White, an old lady who had been at the hospital for a long time a a boarder. She was on the fourth floor, and the body had fatien through to the third. She was identified by the structure of her

Cherry Boawell, a three-year-old child, from Lewiston, N. C., who had a clubfoot, and was there for treatment.

Miss Pippen, of North Carolins, who had just entered the hospital, and was to have been operated upon. The body was found in the ruins of the bed in which she slept. The body was found Miss Tippen was from Tarboro, N. C.

Fireman Thomas A. Barret, of the Queen Street Enginehouse, leg broken, right arm fractured in three places, and cut on forehead. He is still alive, but has not regained consciousness, and but little hope of his re-covery is entertained.

Fireman Robert A. Foster, driver, hurt about the head, but not seriously,

Barrett, Foster and several other firemen had run a line of hose through the main entrance of the building, and were driven out either by the fire and smoke or by premonition of an impending collapse above them. Had they remained in the porch they would not have been injured; but, as they went down into the yard, a mass of timber, brick wall, etc., pitched out and down from above

Miss Kate Dolan, of Washington, D. C. one of the nurses of the institution, jumped the stairwell from the third story to the first, landing in a sitting posture at the feet of Sister Bernard, the sister superior, who happened at that point just at that moment. She was hurt about the neck, hands and back, and is considerably injured.

Miss Teresa Glass, of Richmond, Va., also a nurse, is badly burned about one hand and foot, and slightly about the face. She was

carried to a residence on Wood street. The property loss is very large, and the insurance is comparatively small, former will reach the neighborhood of \$200,-000, and the latter is only some thirty or ferry thousand dollars. There were very forty thousand dollars. many narrow escapes from death and many heroic rescues by the firemen, who, despite the fact that they were exhausted by the large fire just preceding the hospital holocaust, worked to save human life as though their own was at stake. Besides, they were still further handicapped by the absence of the eighty-foot extension ladder.

The firemen from Portsmouth and the navy yard apparatus, manned by marines, rendered valuable assistance. They responded as quickly as called upon by Chief Ryan, of Norfolk. The fight against the devouring element was a long one, but the north wing and a portion of the west wing were saved. The remainer of the immense institution of mercy lies in ruins. As soon as the ruins had ceased blazing, the search for the bodies of the victims began. Ambuinnees had been sent to every house that had offered asylum to the inmates of the hospital for information, and still the list of missing was large. The authorities of the hospital decilned to make the names public until they were accounted for in some manner.

The firemen discovered Mrs. M. Ewen's body at the window of what had been her room on the flourth floor. All the bodies discovered were on the upper floors, and the positions in which they were found indicated that the victims had made every effort to escape. They were all charred to crisps.

MORGAN CITY WRECK.

Troop Transport Struck a Reef in the Middle of the Night.

Yokohama, via Victoria, B. C., (By Calde, -Interesting details are at hand of thy wreck of the American transport Morgan City in the Inland Sen of Japan. It appears that it cam very near being an appalling catastrophe. Striking upon a reef at 3 o'clock in the morning, the ship remained fast until daylight, when, by adopting the expedient of rushing the men alternately from one side to the other, the side was rolled from the rocks into deep water, where she at once began to fill rapidly. She headed for the shore of the I-land of Inoshina, several miles distant, sinking perceptibly every yard of progress. She reached the beach barely a minute before otherwise

going under. The discipline of the men was admirable and all were gotten ashore in safety. The seamanship shown appears not to have been so admirable, as no precautions were taken to make the boat fast to the shore after beaching. The day was spent in removing stores, the transport lying very nearly bows under, but well affoat in the afterpart. Late in the afternoon, without warning, she slid off the steep teach and sunk in about six

SHOT TO DEATH.

Colored Men Killed by White Miners in Illinois.

TROOPS ORDERED OUT.

The Whites Had Forbidden the Negroes to Enter Carterville-When Thirteen of Them Came Into Town to Take a Train, the White Miners Attacked Them-The Negroes Try to Escape.

Carterville, Iil., (Special.)—Carterville was the scene of a bloody riot, in which six colored men were instantly killed, and one fatally wounded, while two others received

slight wounds. Trouble has been browing since the cultitie was recalled by Governor Tanner. The white miners of this place have refused to allow the colored miners to come into town, always meeting them and ordering them back. Sunday, however, thirteen colored men, all armed, marched into town, going to the Illinois Central Depot, where they exchanged a few words with the white miners

Then they pulled their pistols and opened fire on the whites, who at once returned the fire. A running fight was kept up. The colored men scattered, some being closely followed by the whites up the main street while the remainder fled down the railroad tracks. Here the execution was done, all who went through town escaping. After the fight was over four dead bodies were picked up, and another mertally wounded. They were taken to the City Hall, where the wounded man was attended to, and an inquest held over the dead once.

Trouble has existed here off and on for

over a year, but no fatalities occurred until June 30, when a passenger train on the Iillnois Central Railroad was fired into, and one colored woman was killed. These were on their way to the mines, having come from Pans. A short time afterwards a ritched battle ensued between the union and honunion forces, during which time the dwellings occupied by the non-union colored men were burned. Several arrests were made, and the accused are in jail at Marion awaiting trial on the charge of murder. Superintendent Donelly, of the Brush

mines, where the colored people reside, re-ports that they are worked into a freezy, and that, while he is doing all in his power to hold them in check, he is afraid that he cannot do so much longer, Company C. Fourth Regiment, L. N. G., arrived here, and will endeavor to preserve

order. Forty miners from the Herrin mines

are reported to have left that place for this

city, armed with Krag-Jorgensen rifles, and

determined to assist the white miners there. One Victim a Preacher.

Murphysboro, Ill., (Special.)—One of the dead colored men at Carterville is a preacher; the others are laborers. One of them, when first shot, started to run. He was shot again, and feil. One of the white men then ran up and shot him through the head with a rifle. The shooting took place immediately in front of Mayor Zimmerman's house, and in full view of several ladies seated on the porch. Before the noise of the first shots had died away the streets began to fill with excited armed men. After the crowd of colored men had been killed and scattered, it was the evident intention of the infuriated miners to go to Greenville, where the big non-union colored camp is located, and finish the work. All the afternoon an angry crowd of men patrolled the streets, Later the projected trip to Greenville was apparently called off.

CAPTURED A CANNON.

Americana Bombard a Filipino Town-

Movement Wall Made. Munlis, (By Cable.) - The United States cruiser Charleston, the monitor Monterey and the gunboats Concord and Zafire, with marines and blue jackets from the cruiser Baltimore, left Cavite September 18, and, as already cabled, proceeded to Subig Bay to

destroy an insurgent cannon there. Owing to the bad weather, the operations was postponed until Saturday, when the warships for three hours bombarded the town of Olangapo and the entrenchments where the gun was situated.

Men from the Charleston, Concord and Zafiro were then landed under a heavy insurgent fire, proceeding to the cannon, which was utterly destroyed by guzcotton, and then returning to the warships.

The Americans had one man wounded

during the engagement.
While waiting in Subig Bay for better weather the Americans descried Filipino reinforcements moving toward Otangapo. At 5.40 o'clock A. M. the Monterey began the advance upon the town, which was about three miles east of the monitor's ancherage. The Charleston, Concord and Zafiro followed.

At 7.25 o'clock the Monte v opened fire with her secondary and main batteries, the Charleston and Concord joining immediately. At 7.38 o'clock the insurgent connou answered, the first shot passing close to the Monterey's smokestack. The gun was fired The American bombarding then became

general, At 9.3) the Monterey advanced to a range of 600 yards, using her main bat-Two hundred and fifty men were ded about 8 0 yards east of the cannon at 11 o'clock under a severe shore Mauser fire The men from the Charleston were the first to reach the beach, but the Concord's men were the first at the gun, which they reached at 11.10 o'clock. The cannon was found to be a 16-centimetre Krupp gun, presumably

obtained from the Spaniards. Meanwhile the warships continued to shell the shelving beach on the east and west side to silence the insurgent fire upon the sailors from the tranches skirting the brach.

Gunner Olsen exploded 50 rounds of guncotton, in three discharges, in the cannon, which had suffered from the fire of the war-The Americans then returned to the bonts, the firing inland being kept up to protect the embarkation. The Concord's men were

the last to leave the shore, and the warehips were reached at 12.50 o'clock P. M. Cadet Brinser, with the Concord's launch, armed with a Gatting, did excellent work on the left of the landing party. Photograph Gallery in Wisconsin the Scene of Terrible Conflict.

Eau Claire, Wis., (Special.) - Hugh Thompson's photograph , allery was the scene of a luck with swords. A handsome young woman was hired by Thompson as his assistant. Later a man in a state of great excitement entered the gallery. He said this name was Maguire and that he was the husband

of the girl. Exactly how the fight started is uncertain, but hanging on the wall were two sabers, and in a moment Thompson and Maguire were engaged in deadly conflict. The giri called for help, and as Arthur Rickard, a furniture man, rushed into the gallery, he saw Thompson on the floor, covered with blood, and Magnire apparently about to run the sword into Thempson's enest. Bickard pulled Magnire off and the latter fled. No arrests have been made,
